DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 1/5/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 09/757827 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Acknowledgments

2. Acknowledgment is made of the amendment filed 1/5/04.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 4, 5, 8-10, 12, 14-20, 35, 38, 39, and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Ueda (US 5,727,429 A).

With respect to claims 1, 4, 8-10, 12, 14-20, 35, 38, 39, and 40, Ueda discloses an athletic shoe (or boot) comprising an upper and an outsole body 18 with toe and heel regions, a frame (or base) member, shown by dotted line, secured and embedded in said outsole, a cleats 16, and a pair of adjustment members (or spacers) 150 mounted at the toe region and extendable away from said frame for engaging a binding member

12 by means of a driving tool, as shown in figures 1 and 2. Due to the broadness of the claim and lack of recited structural interaction between the adjustment members and binding, the claims read on the pedal binding of Ueda.

With respect to claim 2, Ueda discloses said adjustment members include engagement portions and threaded portions (not numbered).

With respect to claim 5, Ueda discloses said frame member as having fore and aft holding members 140, 142 for engaging the threaded portion of said adjustment members, as shown in figures 1-2.

Allowable Subject Matter

5. Claims 22-24, 26, 28-34, 36, and 37 are allowed.
6. Claims 3, 6, 7, 11, and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. The following is an examiner's statement of reasons for allowance:

In claims 3 and 37, the recitation of the engaging portions of the adjustment members as being made of an elastomeric material in combination with the rest of the recited structure defines over the prior art.

In claims 6, 7, and 21, the recitation of a plurality of base members in combination with the rest of the recited structure defines over the prior art.

In claims 22 and 30, the recitation of a snowboard boot and binding in combination with the rest of the recited structure defines over the prior art.

In claim 36, the recitation of a plurality of interchangeable adjustment members in combination with the rest of the recited structure defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

8. Applicant's arguments with respect to claims 1-12, 14-24, 26, and 28-40 have been considered but are moot in view of the new ground(s) of rejection.
